AI at your business

6 short questions + 2 optional questions on the back

For adults 18+ who own a business or help choose its technology.
No names needed. You may skip any question. Choose one person per business.

Optional business survey. Answers may be summarized for research; no names are requested.

1. Do you own a business or help choose its technology?

Choose one.

- ☐ Yes
- ☐ No

If No, stop here. Thank you.

2. How has your business used AI in the past 30 days?

For example, ChatGPT or other tools that create text, images, or code.
Choose one.

- ☐ Not used it
- ☐ Only tried it
- ☐ Used it for regular work
- ☐ Not sure

If you did not use AI, are not sure, or skip this question, go to optional Q7 on page 2.

3. Who decides how AI is used at your business?

Choose all that apply.

- ☐ Someone in our business
- ☐ An outside IT adviser
- ☐ The AI tool provider
- ☐ No one has been assigned
- ☐ Not sure

Choose "No one has been assigned" or "Not sure" on its own.

4. Are there rules about what information can go into AI tools?

Choose one.

- ☐ Yes, written rules
- ☐ Yes, informal rules
- ☐ No rules I know of
- ☐ Not sure

5. How often does someone check AI results before using them?

Choose one.

- ☐ Always
- ☐ Usually
- ☐ Sometimes
- ☐ Rarely or never
- ☐ We haven’t used any results yet
- ☐ Not sure

6. How did you check the AI tool’s privacy?

Choose all that apply.

- ☐ Read the provider’s privacy information
- ☐ Checked our account’s terms or settings
- ☐ Had someone in our business review it
- ☐ Asked an IT or cybersecurity adviser
- ☐ We haven’t checked
- ☐ Not sure

Choose "We haven’t checked" or "Not sure" on its own.

Optional: quantum security

2 extra questions - you may skip both

You can leave this page blank. Please do not add names or contact details.

Optional business survey. Answers may be summarized for research; no names are requested.

7. Before this event, how familiar were you with quantum-safe encryption?

Encryption designed to resist attacks from future quantum computers. Also called post-quantum cryptography.

Choose one.

- ☐ I had not heard of it.
- ☐ I had heard the term.
- ☐ I knew the basics.
- ☐ I could explain what it means for a business.

8. Before this event, had your business asked an IT or software provider about quantum-safe encryption?

Choose one.

- ☐ Yes
- ☐ No
- ☐ Not sure
- ☐ Not applicable

Thank you.

Please return both pages together.
